Senator Metcalfe To Be Candidate For Second Term

Senator Penrose B. Metcalfe of San Angelo, who has proven himself to be a champion of farm, school, social security, and national defense legislation during his first term in the Texas Senate, and four preceding terms in the House of Representatives at Austin, announced this week that he would be a candidate for a second term from the 25th District.

"I don't believe that any new State taxes should be levied, but the State must practice economy in everything except the war effort," Senator Metcalfe said, in announcing his candidacy. "Of course, the most important thing for all of us right now is to win the war, and, as a member of the legislature, I believe I can say for all the citizens of this State, Texas can be counted on to do her part."

"I submit my candidacy for re-election to the Senate," the senator said, "upon a record of having carried out faithfully and diligently those pledges made when I was elected. During the coming months I expect to make as active a campaign as conditions will permit, and hope to confer with people throughout the district."

An officer in the United States Army Air Corps during the first World War, Senator Metcalfe has shown repeatedly by his official acts that he can be counted on to sponsor legislation needed to help win the war. Under his leadership (Continued On Page Five)

Mrs. C. M. Albin Fatally Burned; Services Wednesday

Mrs. C. M. Albin, 55, wife of a prominent Comanche ranchman, was burned fatally at her ranch home 8 miles south of Comanche shortly after noon Monday. She was washing the wall of a brooder house with a mixture of kerosene and gasoline when the solution came ignited, setting fire to her clothing. Her cries were heard by E. E. Chambers, a young man who was working on the place. He rushed to her aid as she opened the door of the house and ran out. Young Chambers was painfully burned about the hands as he tore the burning clothes from Mrs. Albin. She was carried to a Gorman hospital where she died at 2:00 o'clock Tuesday morning.

Funeral services were held at the First Methodist Church of Comanche Wednesday afternoon with the pastor, Rev. A. B. English, and former pastor, Rev. E. R. Gordon now of Highland Park Church, Fort Worth, officiating. Interment was in Oakwood Cemetery.

Pall bearers were William C. Chilton, Hollis Burton, Gaston Boykin, Joe Tupin, Ira Clemons, and Walter Barret.

Mrs. Albin, member of a pioneer Comanche County family, was the daughter of the late Mr. and Mrs. Tom Edwards and was born in the Harmony community as Mary Melissie Edwards April 27, 1886, and had lived in the county all her life.

She was married to Clarence Albin January 12, 1904. To them were born two children, Mrs. Delmar (Pearl) McDaniel and Earl Albin, both of whom live on ranches near Comanche. There are two grandchildren, Matricia McDaniel and Mary Jo Albin. A brother, Jim Edwards, died a few years ago, and Mrs. Albin is survived by three others, Clarence, Dock, and Zett Edwards all of Comanche.

By hard work and good management Mr. and Mrs. Albin were gradually able to acquire and pay for one of the best ranches in the county with a fine ranch house with all modern conveniences.

Mrs. Albin was converted early in life and united with the Methodist Church, being a member at Comanche at the time of her death. She was an active worker in the church and one of the most beloved women in the county as was attested by the large crowd that attended the funeral services, there being more than twice as many present as could get into the church.

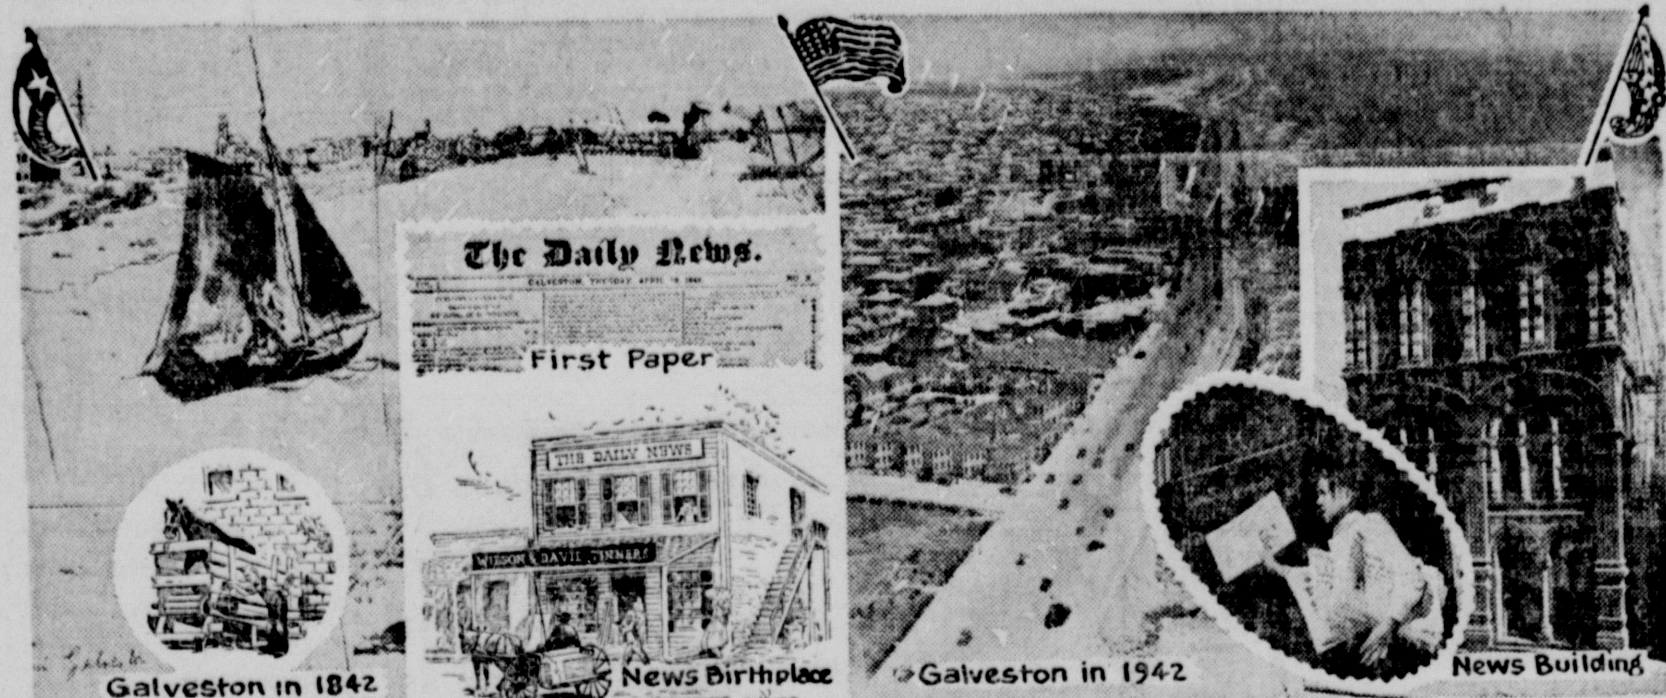

Local Layman Speaks To Eastland Baptists

C. L. Huett, local business man and Baptist layman, spoke again last Monday night to the Eastland County Baptist Brotherhood who had the women of the church as their guests.

Mr. Huett recently addressed the brotherhood at a meeting at Rising Star and last week received an invitation to return and address the joint meeting at Blake.

Rev. Kemp, pastor of the Blake church, says the address based on the scripture, "Will Ye Also Be My Disciple," was one which all laymen should have heard.

Texas' Oldest Newspaper—The Galveston News—Rounding Out Century of Service

Fired by the cry "Remember the Alamo" a roving soldier-printer issued a four page folder in Galveston on April 11, 1842. Today, spurred by another slogan "Remember Pearl Harbor," this selfsame publication will dedicate its one-hundredth milestone of continuous publication under three flags, across seven cycles of panic and prosperity, with a special centennial edition.

A lone survivor of the era of the Texas Republic, The News, referred to as "The Old Lady By The Sea," will join hands with the nation's other 146 century old publications; thereby attaining a

survival average of one-per-cent on the basis of approximately 15,000 publications in operation today.

Shown left to right are contrasting pictures of Galveston and The News of 1842-1942, with inserts of the first available copy, the blind horse "Charlie," who once powered the press on a treadmill.

In the course of a century this publication has operated under three managements, Willard Richardson (1844-1874), Col. Alfred H. Belo and George B. Dealy Interests (1865-1923) when it was sold to its present owners, W. L. Moody and Associates.

Every dairyman, small or large, is invited and urged to be present. Let's make this Dairy Day a big success.

Comanche Rises to the Occasion

I have personally visited practically every firm in Comanche in behalf of the sale of United States Defense Bonds and Stamps and it is indeed gratifying to me to find the splendid American spirit that exists. I do not believe there is a place in America any more American than old Comanche.

Most people that I contacted were not only willing but anxious to join in this move and sign up a pledge agreeing to invest regularly in Bonds and Stamps for the duration of the war or so long as they are financially able to do so. Most of them feel as I feel that this plan is both an opportunity and a privilege to invest in the future of America which investment will help up to carry on through the hard trying days ahead of us.

Most of the firms around the square have signed up 100%. I will appreciate it if those that I have not been able to see will come in and let me discuss this plan with them.

Of course every one knows that this is voluntary on your part and the Government is not attempting to force any one to buy bonds but I believe that every red blooded American wants to have a part in this great cause even if that part must of necessity be small.

Again I say that I am proud of the splendid spirit that we have and may God give us the brains and the courage to do our job as well here at home as we know our boys will do in the firing line.

—WM. C. CHILTON, Chairman Comanche County Defense Bond and Stamp Sales.

Drive For Scrap Iron Continues

Sol Hoffman, official scrap iron dealer for Comanche County, is urging all who have not as yet done so to bring in every pound of waste scrap iron for shipment to a defense factory for the production of war materials.

To carry out the vast armament program, more and more scrap is needed and communications from official headquarters indicate that all efforts for willing co-operation will be made, but failing this method other steps will be taken. Hoffman said, to see that all waste scrap will be placed in the proper channels for armament needs.

Hoffman's weight records show that more than twelve hundred thousand pounds have been brought to date. Eleven cars, and a number of truck loads have been shipped out to date, and several more cars are prepared for shipment as soon as the railroad can provide cars. More than \$6,000.00 has been distributed over the county in payment for this, and an estimated third of this amount has been used in purchasing stamps and bonds. The need for a continuation of the drive is described in Hoffman's scrap iron ad on another page.

On February 27th, Sol Hoffman collected several of the ads and notices connected with his scrap iron buying, and sent them to President Roosevelt at the White House, with a notation indicating that he thought the President might be interested in knowing of the co-operation of small inland cities such as Comanche in the drive for scrap iron.

A letter dated March 3rd was received in reply, as follows:

My dear Mr. Hoffman: Your letter of February twenty-seventh to the President, with the enclosed clippings, has been received. He appreciates your courtesy in writing him and wants you to know that he is indeed grateful for your good wishes.

Very sincerely yours,
M. H. McIntyre
Secretary to the President.

Dale Howard Injured Tuesday In Car Wreck

Dale Howard, popular young Comanche County School Superintendent, was critically injured Tuesday night in an automobile-truck collision near Goldthwaite. He suffered a fractured skull, a broken right arm, and lacerations about the face and head as well as numerous bruises about the body.

His condition late Thursday afternoon as described by attending physicians at Medical Arts Hospital in Brownwood, where he was rushed immediately after the accident, was satisfactory.

Howard was returning to Comanche from Austin, where he had been working for two days in straightening up some school transportation business for Comanche County schools, when the accident occurred. It happened near the "Y" north of Goldthwaite, where the highway divides, with one road going on into Goldthwaite, and the other to Hamilton.

The truck was headed toward Hamilton. The driver of the truck and his wife, who was riding with him, were slightly injured and were given emergency treatment at Goldthwaite.

"The accident seemed to be one of those things which just couldn't be helped," said Roy Wilson, ambulance driver for the Fairman Funeral Home of Goldthwaite who carried Howard to the Brownwood hospital.

Both the car and the truck were badly damaged.

Frazier Elected Coach At Mexia

Glenn Frazier, head coach of Comanche High School since 1935, was elected Tuesday night as coach of the Class AA Mexia High School Black Cats. Coach Frazier will leave Comanche on April 6, and will conduct the spring football practice at Mexia.

In Frazier's seven years as coach at Comanche, he has produced two district championship teams, tied for the title once, finished in second place twice, and in third place once. The Indians have lost only ten conference games in these seven years, five of which were lost in 1935, his first year.

Last season's eleven were bidistrict champions, and were edged out 7-6 in the regional title contest against Stamford.

Coach Frazier came to Comanche directly out of the Texas A&M campus, where he was a star in both football and basketball.

He will receive a nice promotion in going to Class AA Mexia, receiving a salary of \$2100.

"Now is the time for all good men to come to the aid of their country" ran the sentence we used to practice at the old writing school and now written by all beginners on the typewriter.

The thought expressed in the sentence was never truer than today. Time plays an important factor in ultimate success. Now is the time to buy Defense Bonds or Stamps, to pay your income tax in full instead of by the quarter, and to help the Red Cross.

Now is the time to buy your 1942 auto license. They must be placed on your car by April 1.

You cannot, however, buy your license unless you have a certificate of title from the State Department at Austin. You may apply at the local tax collector's office for the proper blank.

Harry Lee Harris, formerly of Comanche who now manages the Community Public Service Company at De Leon, has announced as a candidate for mayor of De Leon.

Other candidates for the De Leon post are M. D. Stewart, picture show owner, and Rev. C. A. Calhoun, Methodist Circuit rider.

Mayor Frank Daniell of De Leon who is not a candidate for re-election, suffered a stroke while fighting fire in his orchard last week and was taken to a Gorman hospital where he remained seriously ill for some time.

Auto licenses put on this year must last for the duration according to the War Production Board. A tab no more than 4 square inches will be attached to the license each year to bring them up to date. There may be an exception, however, in the case of Texas. The Texas license plates are made at the penitentiary at Huntsville and it is said that the 1943 plates were already being made when the order was issued from Washington.

Tom Rambo, former resident of the Gustine community, who until recently was editor of The Petersburg Journal in Hale County, has now joined that growing list of newspapermen in the U.S. Army.

The Talpa High School Gymnasium valued at \$35,000 was destroyed by fire last week. It was the second gymnasium of that Coleman County school to be lost

by fire, the first having burned on the same site in 1939.

The Navy wants college trained athletic directors to help get Navy recruits in shape. Already some of the best known coaches in Texas have signed up including Mike Brumelow of TCU and Whitey Baccus of SMU. The men will start in at \$99 per month with \$34.50 additional if they have dependents.

When you recognize a man but cannot recall his name it means that your mind is fading faster than your eyes, says The Menard News.

The best cook seldom brags. She is more apt to say, "Really this isn't fit to eat. I usually have better luck, but it seems that everything happened today when I started to bake."

It seems that Hitler is a glutton for punishment says an exchange which points out that the German ruler has just announced that he intends to marry as soon as the war is over.

A big patriotic rally is to be held at Stephenville March 31.

Bids have been asked for repaving of Highway 67 between Stephenville and the Somerville County line towards Glen Rose.

Hoarding of commodities produce two certain results—high prices and government rationing.

"Strike now while the iron is hot"—a hundred pounds of scrap iron brought to Comanche now might mean more towards defeating the Japs than 1,000 pounds brought in a year from now.

The Brady Standard came out with a very fine 28-page edition last week celebrating the anniversary of the establishment of Curtis Field in that city.

Lots of girls are very particular about whom they will marry until somebody asks them, says the Waco Times-Herald.

Tires that are so badly worn

that they can no longer be used, should be sold to junk dealers so that they may be used in making new rubber, says Leon Henderson.

Bible Thought: "Owe no man anything but to love one another; for he that loveth another hath fulfilled the law."—Romans 13-8.

The Government estimates that about 25 per cent of the passenger automobiles now in use as family cars will be put up for the duration within about 12 months.

A Dallas man, name not released, has paid the highest income tax in Texas this year. His check was for \$518,000 and this was for payment of the first quarter only, indicating that his income check for 1942 will total more than 2 million dollars.

One Dallas corporation sent the U.S. Internal Revenue Department a check for \$260,000 representing the first quarter payment of its income tax.

Give me men and proper material and we will win, says General MacArthur.

All men from 45 to 65 including President Roosevelt will register for military service on April 27.

It is believed that with the age of voluntary enlistment in the U.S. Army now raised to 45, many of the War I veterans will enlist.

We often hear about the nagging woman, but we noticed in a city paper recently that a woman was suing her husband for a divorce on the grounds that he was always nagging her about spending too much money.

There is but one cure for nagging whether it is by a man or woman and that is to stop doing it says a Waco paper.

The cure for nagging like the cure for drink is simply the matter of will power, says the paper. You must use enough will power to shut your teeth on the words that you know are fighting words and that are just as good for a family quarrel as is a nickel for a ginger cake.

Voice (from rear seat of taxi): "I say, driver, what's the idea of stopping?"

"Sweet tart, you're roll the world to me! I'm a well-bred man and that's a good reason why you should marry me. Be my batter half and everything will pan out all right. Being your praises night and day because I loaf you. Doughnut refuse, sugar, or you're croller than I think you are!"—War Whoop.

"Won't your wife hit the ceiling when you go in this late?"

You people who are past middle age will recall when a child and your daddy had gone to the gin or the store and was just a little late getting back how nervous mother and all the children got and how all would listen for the familiar rattle of the wagon as it drew nearer and when you heard it, the sign of relief that escaped each child and also the mother.

Well, that is just how the whole United States felt last week, says The Lometa Reporter, when it was announced that General MacArthur had been placed in command of the forces in the Pacific and already had landed in Australia.

Spirits of the American people as well as those of England and Australia soared and folks felt just like they did when they heard the rattle of Dad's wagon as it jostled over the sand rocks. It gave us all new assurance.

Funeral Rites Held For Mrs. J. P. Graham

Funeral rites were held for Mrs. J. P. Graham at the Comanche Methodist Church last Friday morning at 10 o'clock with the pastor, Rev. A. B. English and the former pastor Rev. N. E. Scarlett, now of Ranger officiating. Interment was in Oakwood Cemetery.

Active pall bearers were E. Paul Jeanes, Vasco Lee, J. C. Biggs, Joe Marshall, Oswald Brightman and Leverett Little. Honorary pall bearers were A. S. Harris, F. L. Little, W. D. Jenkins, O. Brightman, J. C. Helm, and Morris.

Mrs. Graham, who was past 90 years of age had lived in Comanche nearly 50 years and was from one of the leading pioneer families of the Old South. She was well educated, cultured, a former music teacher, and was one of the most active church workers of the county.

The following sketch of her life was read by the pastor during the services.

Margaret Elizabeth Beane was born on an old Southern plantation in Lowndes Co., Mississippi, Oct. 1, 1851.

In early childhood she was converted and became a member of the M.E. Church South. At the age of 18 she graduated at Columbus Female Institute in Columbus, Miss., at that time one of the few colleges for women in the South.

Upon graduating she joined her parents who at the close of the Civil War had located in Paris, Texas. Here she taught English in Dr. McClain's Boarding School for Girls, until her marriage to Jno. Patterson Graham Oct. 22, 1872.

To this union was born 10 children: Mrs. S. E. Rives of Port Arthur, Texas, Mrs. W. E. Whisenant of Chandler, Texas, Mrs. L. Q. Hargrove of Holden, Mo., Jno. Preston Graham, who passed away in infancy, Mrs. J. D. Smoot of Comanche, Mrs. C. A. Thornton of Lueders, Agnes Elise Graham of Comanche, Emma Virginia Graham, who went to heaven in year 1923, Jas. M. Graham of Russellville, Ark., Philip E. Graham of Austin.

Mr. Graham moved to Comanche Dec., 1892, where the family has since lived.

Mr. Graham passed away March 12, 1929.

Mrs. Graham was a charter member of the Women's Missionary Society in Comanche and its

Mail Carrier Drowns In Lake Brownwood

Albert S. Stephenson, 56, Brownwood rural mail carrier was drowned Wednesday, March 19, when his homemade boat sank in Lake Brownwood.

The accident occurred about 4 p.m. and the body was recovered from the water at 12:20 Thursday.

Stephenson and W. A. Britt of Brownwood went to the lake, near Jim Ned bridge on the Cross Cut road, to load a boat which they planned to move to Pecan Bayou. The mail carrier got into the boat to take it to a point where it could be loaded onto a trailer, while Mr. Britt drove his car around to the point.

When Mr. Britt arrived he waited awhile for Mr. Stephenson and then started back on foot to try to find him. He saw Mr. Stephenson's hat and a paddle from the boat floating on the water, and drove to Brownwood to give the alarm.

Stephenson was president for a number of years. He was active in all branches of Christian service throughout his life.

She taught in the Sunday School for over 50 years, teaching until the week of her last illness. She was one of the pioneers in music in this section and trained some of the best talent in the State.

She was a gentle woman of the Old South; yet she lived in the present, keeping abreast of the current issues throughout her life. Her zeal for living and her interest in people kept her young all the years of her life.

She loved her friends and spoke of them 'till the last. Her resourcefulness in love and care for her family, as a wife and mother, and her sweet patience and cheerfulness in suffering live forever in the hearts of her children.

The following sketch of her life and tribute to her memory was written by Rev. Barrett:

Mrs. Tiney Brown Werner was born in Lamar County, Texas, October 10, 1881. Died in Comanche, Texas, March 23, 1942. At the time of her death, she was 60 years, 6 months, and 13 days old.

On August 19, 1901, she was married to Dave Werner. To this union four daughters were born. One daughter died in infancy. At the early age of seventeen years, she was converted and united with the Baptist Church. Through the years, it has been her meat and drink to do her Master's will.

She with her companion, in the year 1907, came to Comanche, Texas, where they have since resided and reared their family.

She leaves to mourn her absence, her companion; three daughters, Miss Jewel Werner of Comanche, Mrs. M. G. Lowry of Lampasas, and Mrs. Bert Ritchey of San Antonio; two sons-in-law, three grandchildren, two sisters, two brothers, other relatives and a host of warm and admiring friends.

May God's infinite grace abide on loved ones, whom she has left

World Emergency Relief.
Next Sunday, March 29th at the close of the morning service our members will be given an opportunity to contribute to the suffering, starving, dying multitudes over the entire world where the people can be reached. It is known that in China alone thousands are picked up the streets who have starved to death or are night. Our Missionaries are asking Southern Baptists for \$300,000 for this relief. This is a small sum among 5,000,000 Baptists, less than a dime per member. This offering will mightily influence China and some of the European countries for the cause of Christ after the war is over. We, as Baptists, will be called upon to send forth 5,000 new Missionaries after this conflict. Will we be both willing and able to meet this challenge when peace is established? There is no doubt about our being able, but there might be some doubt as to our willingness. Our members will be asked to contribute above their regular contributions to the church. "But whose hath this world's goods, and seeth his brother have need, and shutteth up his bowels of compassion from him, how dwelleth the love of God in him?" I John 3:17.

Baptist Revival.
On the first Sunday in April the Baptist revival will begin. The music will be under the direction of Tommy Godfrey of Ennis, Texas. Mr. Godfrey has recently surrendered his life to full time gospel and evangelistic singing. He is one of the best evangelistic singers in the Texas Baptist Convention. The pastor is still in search for an evangelist for the revival, but as yet has not been able to find one, but is still seeking.

Miss Winona Brewster And Mr. Shankle Wed Sunday Afternoon

Miss Winona Brewster became the bride of Mr. Larrymore Shankle in a ceremony solemnized March 22 at 2:30 o'clock at the home of her parents, Mr. and Mrs. J. B. Brewster, 805 North Elm, in Comanche. Rev. A. B. English heard the exchange of vows in the presence of close friends and relatives.

The single ring ceremony was performed before an altar of embanked maidenhair fern and spring flowers. Primroses on the mantel were reflected by a large mirror.

The couple was attended by Mrs. Jimmie Smallwood of Comanche, sister of the groom and Mr. Rudolph Brewster of Blanket, uncle of the bride.

The bride wore an afternoon dress of sky blue Marquise, cut very full, with the bodice trimmed in myriads of tiny covered buttons. Her corsage was of Talisman roses intermingled with white begonia. She carried a small white Bible that was her maternal grandfather's.

At the reception that followed, the bride's table was laid in lace and centered with the tiered wedding cake, topped with a miniature bride and groom. Around the cake were sprays of salmon pink gladiolus on lace fern.

After the reception Mrs. Shankle changed into a street dress of navy blue Romaine with accessories of navy and white.

Mrs. Shankle is from a pioneer family, her grandfather being J. A. Brewster of Blanket. She attended Comanche High School where she was a majorette in the band. She is formerly of New Braunfels, coming here last September.

Mr. Shankle is a son of Mr. and Mrs. Leo Shankle of Comanche and a graduate of Comanche High School where he was prominent in the school band.

The couple will be at home at 509 West Grand Avenue in Comanche.

MORE ABOUT METCALFE ANNOUNCES (Continued From First Page)

ership as chairman of the Military Affairs committee, the Texas senate adopted legislation which has placed Texas on a war basis. Because the last legislative session met and solved every major problem confronting them, it has not been necessary for the governor to call an extra session during the emergency.

His record may be outlined briefly as follows:

1. Senator Metcalfe took the lead in obtaining legislation protecting the livestock industry and measures promoting the welfare of the farmers.

2. He was very active in the adoption of the legislation providing funds for the social security program, allocating an increase of more than one hundred percent over the previous amount for the old folks, and which set aside adequate funds for the needy blind and dependent children, and to match funds for the Teacher Retirement.

3. Senator Metcalfe has shown himself to be one of the best friends of the State's schools; he has served three years as a member of the Joint Legislative Committee supervising the administration of rural school aid funds. He has also been for many years a member of conference committees for funds for the State institutions of higher learning.

4. He is author of the present law providing retirement benefits for firemen, and sponsored the measure in the senate setting up funds to meet it.

5. He sponsored legislation for the protection of the truck industry, was joint author of the load-limit-increase bill, and author of the commercial license fee bill, which has been widely acclaimed as one of the model acts of the 47th legislature.

6. Senator Metcalfe sponsored a bill to permit free tuition in Texas institutions to a limited number of students from other American nations, a measure designed to foster better relations with our neighboring countries.

Other meritorious measures, which the senator sponsored and help enact, were:

Extension of period of payments on school lands, so as to help the schools and the purchasers also, and to reduce speculation at the expense of legitimate buyers;

Authorization of supplemental census of schools in defense areas; Extension for three years of the time under which the Upper Colorado River Authority will have to secure funds;

Local measures which were requested by practically every county in the district.

Being a member of 16 standing and one special senate committees and of the Joint Legislative Committee, Senator Metcalfe has been influential in pushing needed and worthwhile legislation to a successful conclusion. He has taken an active part in debate on the floor of the senate, is recognized as one of the best informed men in the legislature on parliamentary procedure, and is chairman of the powerful Rules Committee.

Born on a Tom Green County ranch, Senator Metcalfe obtained his preparatory education in the San Angelo schools, going from there to Texas A.&M., where he graduated in 1916. Following four years of military training in college, he entered the Air Corps as a private in 1917, shortly after the declaration of war, and worked his way up to a captaincy in that branch.

Steel-Piercing Eye

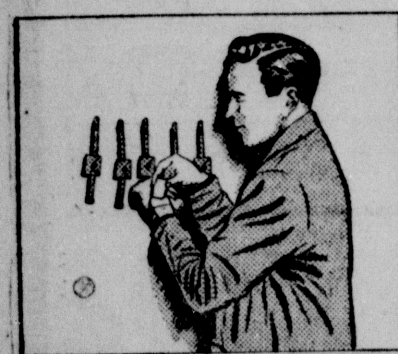

Steel used in vital parts for war machines—planes, tanks, ships, guns—must be flawless, because America's fighting men must have weapons that are both accurate and tough.

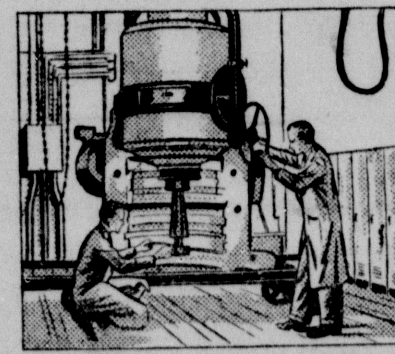

1. The new million volt X-ray built by General Electric saves precious hours in finding flaws. It is so powerful that its rays can pierce thick steel castings.

2. Defects in the steel show up on X-ray film. Therefore faulty materials are tossed aside before costly hours of machining have been spent on them.

3. A regular check-up on pieces of X-ray film worn on workers' wrists helps guard against prolonged exposure to the rays given off by the X-ray tube.

4. X-ray exposure needed for 5-inch-thick steel is now 2 minutes instead of previous 3½ hours! Whole days are saved in examination of even thicker castings.

General Electric believes that its first duty as a good citizen is to be a good soldier.

There was trickery in David Crockett's day, too. In his autobiography, he thus explains his failure to be re-elected to Congress:

"I should have been elected if it hadn't been that, but a few

weeks before the election, the little four-pence-ha-penny limbs of the law fell on a plan to defeat me. They agreed to spread out over the district and make appointments for me to speak almost everywhere to clear up the Jackson question. They would give me no notice of these appointments and the people would meet in great crowds to hear what excuse Crockett had for quitting Jackson.

"But instead of Crockett's being there, this small-fry of lawyers would be there with their saddlebags full of newspapers and their journals of Congress and would get up and speak and read their scurrilous attacks on me and then tell the people I was afraid to appear."

After losing the race, Crockett made a speech of farewell to Tennessee, concluding:

"I am done with politics for the present and you can all go to h— and I will go to Texas."

Not the Mother Goose version: Jack and Jill ran up the hill To fetch a pail of water; Jack fell down and broke his crown And Jill said, "Can't take it, eh?"

Comyn School News

(By Comyn School Reporter)

I Am Proud of Being a Poor Loser

"I like to win! I am a poor loser, and I am proud of it." Have you ever heard these emphatic words spoken?

What a startling statement to make! Haven't we spent each moment of the day, each day of the week, and each month of the year trying to become good losers? Is it possible that we have succeeded too well? Is it possible that there are those who have caught this spirit, and are contented to remain as "Just good losers?"

Where is the challenge to being a good loser? There is no challenge. The qualities emphasized and approved are the qualities which tend to become part of our lives. Naturally, everyone desires approval. If it is possible for some of us to obtain it by developing this quality, but by putting forth very little effort, won't we follow that path of least resistance?

"Victory" is the word that expresses something positive—the word that stands for challenge and inspiration. With "victory" as our watchword, we will think, we will gladly work hard, we will do our best, we will persevere, and we will always have hope.

Can we win all the time? Of course not. But a failure doesn't mean a failure unless we make it that by adopting a cheerful and good loser attitude. So much success is brought about and accomplished through profiting from failures.

We have that spirit that makes a winner. May we only have the winning spirit to be a loser—poor or good.

Let's All Keep Faith, Says Memphis Paper

The Commercial Appeal (Memphis, Tenn.) does not permit any one who is not a member of the staff to write its editorials. There are many reasons for this rule, reasons too numerous to recount here. Today (Feb. 28, 1942) we suspend the rule to present as an editorial a letter from a member of the Arkansas Bar who served with the United States forces in the first World War. Any effort to interpolate or embellish would only serve to detract from the elements of sheer forcefulness that make it a document every thinking citizen of these United States should read and ponder. The letter follows:

"To The Commercial Appeal:
"My only son was born while I was in France during the first World War. Today he is a member of the United States Marine Corps. He sailed from California the first of January, and we have heard nothing from him since. We know he is somewhere in the Pacific. We are anxious about him. Thousands of other parents are like us.

"The President says we do not have enough ships to send supplies to our troops, and that we must build ships in a hurry. Even as he spoke several hundred shipbuilders refused to work on Washington's Birthday because they were not paid double time.

"How can fathers and mothers of boys who are in the danger zone and who are being called upon to sacrifice their lives feel any 'surge' of unity when the President and the Congress permit a bunch of shipbuilders and munitions workers to quit when they get good and ready?

"Do our boys at the front get 'overtime' and 'double time' in the fox holes of the Philippines? Do our sons who are giving their lives to protect the jobs of these and others like them quit on holidays? Like hell they do!

"One of my friends, who is a good mechanic, with a family to support, went to get a job in a munitions plant. Every day we hear on the radio and read in the newspapers that such men are needed to turn out munitions for our soldiers, sailors and marines. But this man was refused a job until he could get a union card. He could not get a union card because he did not have enough money to buy one.

"Is it the idea of our Government that it is more important to preserve labor unions than it is to preserve the American Union? Why can't a freeborn American citizen get a job in a plant where the Government needs workers without having to pay tribute to a high-powered labor leader?

"If our sons are to be drafted

to give their lives for their country, why should not Labor and Capital be drafted to supply them with munitions of war? Why should Congress, which has the power to make laws, be so tender of the regard for laborers and management who work and prosper in safety while having an utter disregard for the lives of the boys at the front?

"We don't like it, and we don't mind saying so right out loud. Maybe it is time we were electing some senators and congressmen who will crack down and compel Capital and Labor to get into this war. And, come to think of it, this is election year, and we might as well get busy while we have the time and opportunity.

"John C. Sheffield."

The club voted to assess a 10c fee monthly to be used to carry out social entertainments for the community.

The next meeting will be held April 2 at the gymnasium. From there the group will go to Mrs. Warren's to help with a frame garden.

An invitation is extended for more ladies to attend these meetings and take part in the club activities.

Comyn National Defense Shop Now Turning Out Work

Since the organization of our National Defense shop at Comyn much constructive work has been done both among out of school youths and the adult farmers. We are urging the farmers to bring into our shop all machinery that can be repaired, and we are getting results. However, we expect to get much more done along this line in the immediate future. Our shop is well equipped with hand tools, blacksmith equipment, electric drills, etc., that will teach the out of school youth and the adult farmer as well as render them much service on their home farms.

Apparently the people of the Comyn community are beginning to realize that there is a need for food and food for freedom. At a meeting recently of about thirty farmers we found that peanut production among the group will increase approximately 30% in 1942. The increase in poultry, beef cattle, dairy cattle, and hogs, as well as we can determine, is sufficient to meet the Government's demands. A renewed interest in soil and water conservation has swept through the community. Besides the organization of the Cow Creek watershed project, many farmers are spending more than their AAA soil building allowance in conserving soil and water on their farms.

NOTICE!

To All Motor Vehicle Owners

The 1942 Auto License Plates went on sale February 1st, 1942, and owners of Automobiles, Trucks or Pickups have until April 1st, 1942 to secure such license plates.

The Certificate of Title Law has a provision in it that a person must have a Certificate of Title before he can re-register the vehicle and The State Highway Department has issued instructions that a collector shall not issue license plates for a motor vehicle for the year 1942 unless the owner of such vehicle has presented his Certificate of Title.

If an owner of a vehicle has made application for title and has not received same from the department in Austin, the receipt issued by the collector at the time of such application will be accepted, provided the title has not been received by the owner. But if the title has been received it must be presented at the office when the vehicle is re-registered.

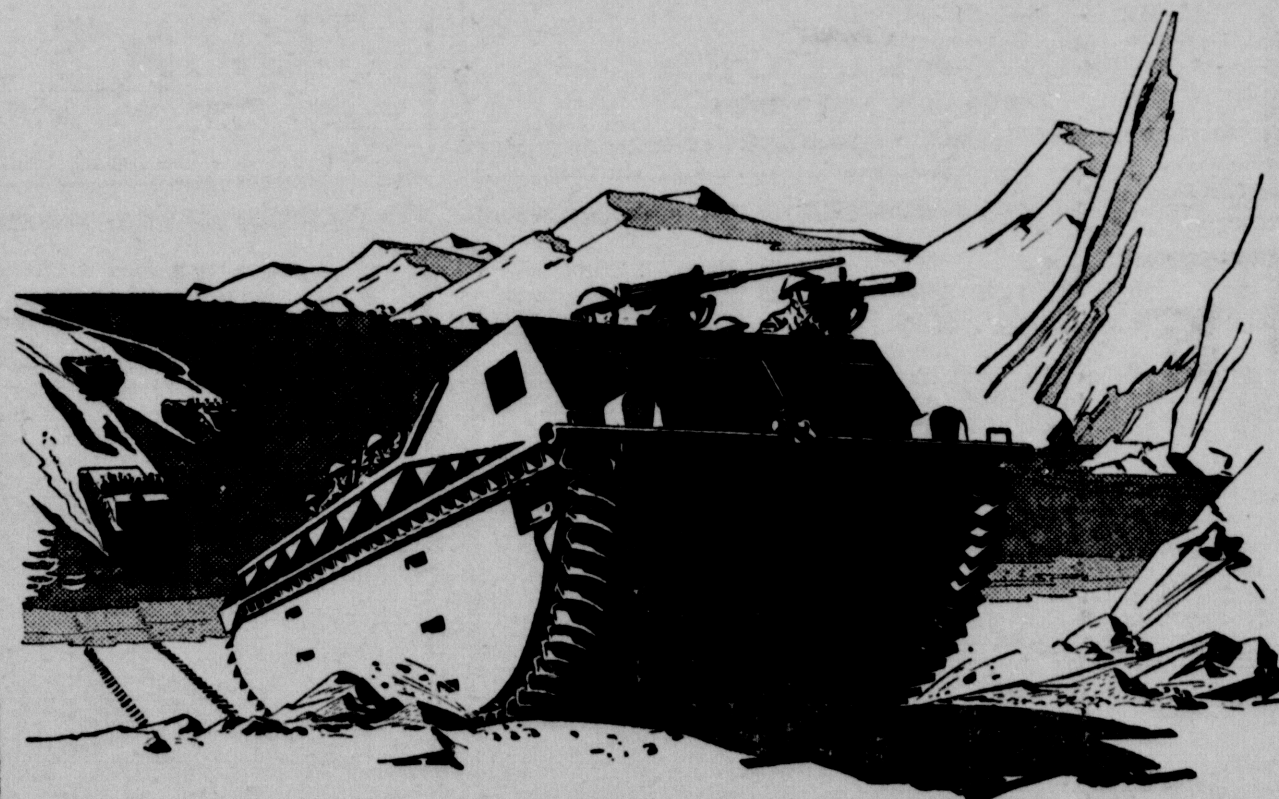

There is a space provided in the 1942 License Receipts for the title number and this title number must be put in this space before the collector can issue the license plates. According to the law you will positively have to bring your Certificate along to re-register your automobile, truck or pickup for the year 1942, unless same has not been received from the department in Austin.

We will very deeply appreciate the co-operation of the motor vehicle owners of Comanche County and trust you can understand our position in the matter.

If you desire to do so you can bring your old license plates in to this office and we will have a space provided to handle these old plates and we will pass them on to the proper place to help win the war. This is not compulsory but just a matter of each of us doing our part as patriotic citizens in helping win the war.

POWER—where it's needed!

• The amphibian tractor—a startling product of American industrial ingenuity—delivers military power where it will do the most good.

The electric network—another example of industrial resourcefulness—connects hundreds of operating electric companies and delivers electric power at points of need.

Built up by the business men who manage America's electric companies and produce 1/3 of America's power, this nation-wide web of electric lines has proved its vital value in the

war emergency—by providing power for tank and plane plants, shipyards and arsenals almost anywhere overnight.

The careful, planned production of electric power will continue—we pledge it—until the war is won—until America's tractors turn from dealing death to planting peaceful fields.

Those in charge of the patriotic rally held in Comanche recently wish to thank the public for their co-operation in helping to make this one of the best meetings of its kind ever held in Comanche. Already similar meetings are scheduled for other county seat towns and it is believed that like meetings will be held throughout the nation.

The committee especially wishes to thank the citizens of the county for their attendance, the business people of Comanche, De Leon, and Gustine, and the public schools of the county for closing for the occasion; the Comanche and De Leon Bands for the splendid music furnished; the soldiers and officials of Camp Bowie for the splendid program they put on; and all who in any way assisted in making the occasion a success.

Woman In Wheel Chair Wants To Help in War

(By Nora Lee Smith)

In previous wars our generals have been asked to go out and win, but in this war it's different, we are aiding them and their troops not with mere words but with U. S. Savings Bonds and Stamps, and we're back of the Red Cross 100 percent.

The Red Cross is the keynote of this short message to you. Because on March 17th I was made very happy when given an opportunity to participate in the program of our patriotic rally given in honor of loyal soldiers, sailors, marines, sons in the air corps in Comanche. My purpose was to sell 100 poems of my own composition and contribute sales to the Red Cross but to my utter disappointment I was unable to penetrate the large crowd which had gathered for such a worthy cause. But remember, soldiers, the blood that runs in the veins of an American is the blood of an ideal and he will defend it come what may. Therefore I shall not despair but patiently lay in wait of another opportune time, for this militant spirit shall not cease. And with this concluding thought, remember always, I may be in my wheel chair at home or on my bed near the radio but my heart shall ever be with you, whether in camp or on the battlefield.

The next meeting will be held at the home of Mrs. D. L. Truett on April 3. This will be an all day meeting. The business meeting will be at 2:30 p.m. Miss Ruth Mayfield, the County Home Demonstration will give an interesting demonstration at this meeting.

Pension Group Organizes Here

(By O. H. Moore, Sec'y.)

A meeting of those interested in Old Age Pension and Assistance for Dependent Children and the Blind was held in the district court room last Saturday. A large number of people attended this meeting indicating a widespread interest.

O. H. Moore discussed some phases of the pension question and H. F. Howington, Representative from this county, discussed the question from other angles.

B. F. Cadenhead was elected chairman and O. H. Moore was elected secretary. An executive committee was selected and were J. S. Nance of De Leon, L. H. Creamer and W. G. Wet of Comanche. Other committees will be added from any community that may be interested.

Complaints and criticisms with Old Age pension administration had become common in this county and many had felt the assistance for dependent children was delayed unreasonably. Inequalities, delays in investigations and discriminations had been allowed to become a part of the administration.

Threats of cuts in pensions had caused some fear among the recipients while no threats of cuts in the administrative set-up had been suggested, whereas, salaries in the State and County set-up run up as high as \$5,000.00 and all administrative salaries are to be paid before any pension allowance is made. The talk of disfranchisement of those who accept the pension gave rise to this meeting and organization.

It was found that there are about 1,500 people in this county above 65 years of age and only 700 receive any allowance at all. The other 800, of which at least 700 are eligible get nothing. More than 100 applications are filed in the office with no final action was indicated at the meeting.

The average pension in our county is said to be nearly \$3.00 below the average in some counties with a heavy foreign, Negro or Mexican population.

It was brought out at the meeting that the Legislature in some way had placed a ceiling on expenditures for pensions so that where one section of the State is well taken care of another must suffer.

The purpose of this organization is to call to the attention of all good citizens the conditions in our county and to see to it that fair and courteous treatment is accorded our old people and dependent children.

It will take a great deal of work and some money to get much done. So far the finances for expenses have been well cared for but all of us must know that we should do our part in this way.

Leaders and good citizens, such as ministers, teachers, farmers, and business men are asked to confer with the committee and help in correcting an injustice in our country.

The next meeting will be held the 4th of April in the district court room at 2 p.m. Before that time the executive committee will meet and determine on a plan to receive and abstract all complaints for presentation to proper authorities.

Woman Wants Liquor Sales Stopped For The War Duration

(By Mrs. Max Keeter)

The people of this country are thoroughly aroused over the increasing interference that liquor is causing in our national life.

The holding of mass meetings here and elsewhere and the organization of public sentiment on this public enemy, will have its effect on our law makers. If the people of this country want to outlaw liquor from this nation, as the rising clamor indicates, they can do no better than get together and let their Congressmen and Senators know how they feel about it. And if the lawmakers then disregard their wishes, there will be left but one alternative to change either their wishes or lawmakers.

The liquor traffic uses grain sugar, tires, gasoline and trucks which are badly needed in our war production effort. Also the many able bodied men who could be doing their bit as soldiers or defense workers. Instead they are helping to distribute something that is robbing any person who uses it.

The people are awakening to the gravity of the production problem and are overwhelmingly opposed to letting any obstacles slow or hamper the all-important production of war materials, when the fate of our Nation may depend on speed. We are making sacrifices of time, money and lives—why should we tolerate selfish and greedy businesses who are interested only in establishing a profitable business.

Woman Drives 10 Miles in Wagon To Visit Daughter

(Contributed)

Proving her patriotism and loyalty to her country, and love and devotion for her children, Mrs. Guy Carnes of near Comanche turned back the pages to time to man's ever faithful friend, the horse and drove 10 miles Saturday of last week in a wagon with three grandchildren to visit her daughter near Downing.

When she arrived there she reported a pleasant trip; it was a very fine day as they came through the bottoms and the children could jump out of the wagon and gather wild violets by the handfuls even as the gentle team of horses winded its way along the creek banks. Those of us who never knew the thrill of this, cannot understand. Her only regret was that she did not have her target along so she could shoot a few of those squirrels she saw playing in pecan trees along the way. As those who know her, will remember, this is her favorite sport.

She came from an old pioneer family—the Hansons—is 63 years old and a crack shot with a rifle.

County Peanut Goal For 1942 Totals 94,856 Acres; Shows 300 Percent Increase Over '41

Peanuts went to war right after Pearl Harbor, according to A. E. Boyd, Chairman, County USDA War Board.

New peanut goal for Comanche County in the Food For Freedom program this year is 94,856 acres, while Texas' goal is 1,056,000 acres, or approximately 300 percent increase over the 1941 crop.

Peanuts are in the war for the duration because we need fats and oils we formerly imported from the Far East where the Japs are now.

At the same time farmers are being asked to increase peanuts, they are not being asked to produce them at a financial loss. The War Board chairman said in explaining that farmers would receive a fair price for the peanuts produced.

Secretary of Agriculture Claude R. Wickard has announced that the price of U. S. No. 1 White Spanish type peanuts will be supported at not less than \$82 per ton with differentials for grades and location.

This doesn't mean all peanut farmers will receive a flat \$82 per ton, but it does mean they'll receive a fair price for what they raise.

Peanut seed are available to county farmers on a cash or loan basis and may be obtained from Comanche Bonded Warehouse at Comanche or Golden Oak Bonded Warehouse, De Leon.

If a farmer wants credit in buying peanut seed to produce peanuts for oil, he will sign a promissory note which is due Nov. 1. This note can be satisfied with cash or peanuts from his 1942 production.

The new Comanche County licenses started with the number 252,201.

SEE YOUR Doctor First . . . !

When you begin feeling ill, see your doctor at once. Don't try to practice false economy by treating yourself or taking a friend's advice. Disease develops fast, and infection spreads rapidly.

Let your doctor prescribe for you. He is the one who knows. It will save you money.

When you bring your prescriptions to the Service Drug Store, you have confidence that your doctor's orders will be carried out accurately and expertly.

We offer you an unusually fine prescription service—at very moderate cost.

J. M. King Dies In Oklahoma

J. M. King, 80, died at his home in Brittain, Oklahoma, last week. His son, B. R. King of Comanche, attended the funeral held in that state. It was the first death in the family in 43 years. Six sons, including B. R. King, acted as pall bearers.

The elder King was a native of Texas having been born in Panola County in 1861 and his wife was born in Nachogdoches. They were married November 29, 1883. Ten children survive, two having died in infancy, the last death being in 1899.

When W. H. Thate, owner of the Piggly Wiggly Store at Comanche, received notice from the local railroad that he had a solid carload of flour, he telephoned the reliable Burks Transfer and Storage Company to do the unloading and hauling to the Piggly Wiggly Store. It pays to contact Burks. (adv)
